## Fur-Mineral-Analysis Program:

Important Note: We request the right to limit the number of elements tested, if necessary due to sample limitations.

### Proper Sampling:

- We need one half gram of hair or fur, which is approximately 1-2 filled soup spoons.
- Fur/hair samples do not have to be washed prior to sample cutting or sample submission. A special process is used in our laboratory to free the hair/fur sample of all external contaminants. During this process, sample weight may be reduced. It is therefore important to provide sufficient sample.
- No special scissors are required. Proper washing will free the sample of external contaminants.
- Do not send mane or tail hair. Our reference ranges are not specific for these types of sample.
- If you do not have our sampling kits, place the fur sample into a plain envelope. Do not use plastic or aluminum foil.
- Fill out this sheet and send with the hair or fur sample to MTM Laboratory.
- No special carrier services are needed. Regular mail or air mail is sufficient.
- Hair is inert and storage does not affect its mineral content.

We thank you for your trust and confidence. For more information, check out website:

#### **Informed consent for data protection**

I consent to my sample being collected by the responsible medical practitioner or alternative therapist, and being transmitted to Micro Trace Minerals GmbH ("MTM") for the purpose of possessing and performing the assay I have requested. Furthermore, I agree that MTM will send my sample material, my name and my date of birth to specialist laboratories in Germany for carrying out the test I have requested and that MTM will be notified of the result. If I wish to send MTM's test result to the responsible physician or alternative practitioner, I agree that he/she will view the test result to provide a diagnosis. I may revoke my consent at any time to the responsible physician or alternative practitioner or to Micro Trace Minerals GmbH. Until my consent is effectively revoked, the processing of my personal data will remain legal.
